To: All educators who have submitted a portfolio application.

From: Lou Aronson, Portfolio Coordinator

Re: Extension on portfolio

The Education Standards and Practices Board has extended the portfolio deadline until **August 1, 2006**. For those teachers who have the application submitted before July 1, 2006, the portfolio will be aligned to the old definitions. If you intend to complete the portfolio with this new option, please email me with your intentions. [laronson@state.nd.us](mailto:laronson@state.nd.us)

Any new teachers wishing to complete the portfolio during July, 2006 will be required to meet the new definitions. However, they will have the portfolio option for the rest of this summer. If you know of any teacher who would be interested, please share this information.

I hope that you are enjoying your summer. North Dakota children are very fortunate to have such dedicated educators. I do consider you in this select group!!

Sincerely,

Lou
